

We pay for what we want and what we get and we want it when we want it or need it. I can't wait to here the traffic report every hour on the hour. XM Satellite Radio provides me with a huge variety that I can't get elsewhere and that is what I pay for. That's what we all pay for! The NAB has no right to take that away from us or to change anything. Please don't ruin a great thing! Please reject NAB's petition 04-160 and support XM Satellite's ability to provide the people the kind of programming that they demand and deserve. Please reject it. Thank you for your time.
